

DEER PARK
NATURAL STONE CLADDING

The main title "DEER PARK" is centered in a large, bold, black sans-serif font. A stylized silhouette of a deer's head with large antlers is positioned behind the word "DEER". Below the title, the words "NATURAL STONE CLADDING" are written in a smaller, all-caps, black sans-serif font.

About Us

Based in Bellaghy Magherafelt, Deerpark Stone supplies quality natural stone cladding for both interior & exterior projects. We are happy to supply only or supply & fit.

100% Stone, 100% Natural

Natural Stone - Made Simple with ThinStone

Natural Stone, Beautiful Home

What is ThinStone?

ThinStone is 100% natural stone cut down to one inch thick giving you the same great finish as traditional building stone.

ThinStone fixes directly to block and stud walls. This eliminates the need for wider foundations and costly lintels.

ThinStone is the ideal stone for both new builds and for re-vamping existing homes.

Making ThinStone
1" in thickness

Where can ThinStone be used?

Suitable outside for house-facing, porches, sun-rooms and garden walls. Suitable inside for chimney breasts, fireplaces and for internal feature walls.

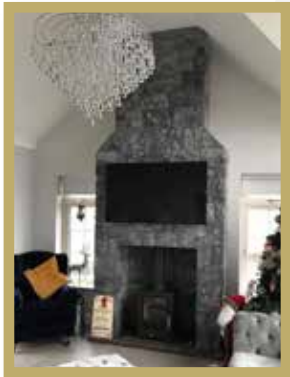

- ThinStone Makes Sense
- 100% Real Stone
- Maintenance Free
- Jobs Completed In Less Time
- No Waste
- Ideal For Existing Homes
- Corners To Give Complete Look

Natural Stone, Beautiful Home

Before & After

Ideal for existing homes

- Add ThinStone
- Add style
- Add value

LightStone for External Insulation

Stone, Simply Lighter

For Your Eco Home

LightStone is 15 mm-thick, 100% natural stone that's as lightweight as it is impressive. Apply it just like a tile, enjoy the classic stonework finish and unlock cost savings and new design possibilities for your home.

What is LightStone?

LightStone was developed for bonding directly to:

- External Insulation
- ICF builds
- Module buildings
- Timber frame buildings

It is the only 100% natural stone which can be fitted directly to the walls when using one of those systems of building. Any other stone requires metal fixings and/or support lintels and is much more costly and complicated to build.

Advantages of LightStone

1. 100% natural Limestone/Sandstone
2. 25-year stonework guarantee
3. One stop shop... supply and fit stone
4. Ex stock in 32 counties/Scotland
5. Quick and easy installation
6. No stone waste or chippings
7. Tidy pallet delivery or 28 sq. metres
